A DIFFERENT & EXCITING VENTURE!

SAFE SPACES

Young Adults ages 21 – 35 will engage with the larger community, bakeries, restaurants, and libraries, in building trusting relationships and spaces as we learn financial techniques and methods.

LEARNING SPACES

We will organize three cohorts of ten to twelve young adults throughout the year. Each cohort will undergo eight-weeks of 2-hour seminars on budgeting, savings, and navigating financial tools.

FRIENDSHIP SPACES

These cohorts will learn from each other in an intimate setting where they will also receive sustainable guidance and technical assistance from local business owners and financial professionals.
